EDUCATION

GeeksInstitute –Full StackDevelopment Bootcamp (2 months, 2025)

Completed an intensive, hands-on MERN Stack (MongoDB, Express.js, React.js, Node.js) full stack development bootcamp.

- Built responsive and user-friendly interfaces using HTML, CSS, JavaScript, React.js, Next.js, and Tailwind CSS.
- Developed scalable back-end applications with Node.js and Express.js, designing and consuming RESTful APIs.
- Designed and managed databases using MongoDB, including data modeling and CRUD operations.
- Implemented authentication and authorization using JWT and role-based access control.
- Applied Git and GitHub for version control and collaborative development.
- Built complete end-to-end web applications following modern software architecture and best practices.
